## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments, see page 11-13, filed August 10, 2005, with respect to claims 11, 12, 14-17, 37, 38, 40-43, 56-59, and 62-65, have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

### *Allowable Subject Matter*

2. Claims 11, 12, 14-17, 37, 38, 40-43, 56-59, and 62-65 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the step of or means for **"each receiver has an associated receive code comprising values for a plurality of positions, each position corresponding to a particular receiver independent of the value for that position, each receiver operable to receive the destination code and to compare the value for at least one position of the destination code with the value for at least one position of the receive code, each receiver operable to determine whether to receive the data packet according to the comparison"**, when such receive code is considered within the specific structure of the device recited in claims 11, 17, 59, and 65, or the method recited in claims 37 and 43.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
